

ROUGHLY HANDLED.

The Evicting Bailiffs at Bodyko, Ireland, Energetically Resisted.

They Finally Succeed, Aided by Troops, in Clearing the Houses—Alaska Sealers.

The Canadian Government Charges the Authorities of Alaska With Cruelty and Injustice.

DUBLIN, June 4.—Evictions at Bodyko continue, but the tenants are offering all the opposition in their power to the sheriff and his guard of police and troops, and find various means of seriously annoying the officers. In some of the houses from which the occupants were to be evicted cayenne pepper was burned, the fumes of which nearly choked the bailiffs. Boiling water was also thrown from the windows upon the evicting force. At two houses where evictions were effected collisions occurred between the police and the people, and a number of arrests were made. When the sheriff's force arrived at the house of tenant Lyddy and ordered the family to leave, a daughter of Mr. Lyddy threw an iron hoop at a bailiff who attempted to enter the door. She was arrested. Her brother was also arrested for inciting the crowd to violence against the police. Another daughter who denounced the treatment her family were receiving was struck by a policeman and felled to the ground. This maddened the crowd and they advanced for the purpose of attacking the officers, but Michael Davitt, who was present, pleaded with the people not to use violence, and barely managed to avert a collision.

After the Lyddy family had been evicted the police made an attack upon the house of a man named McNamara, which was strongly fortified. Crowbars were used and a hole was made through the wall. Mrs. McNamara and her children were in the house and cried piteously until Mr. Davitt shouted words of comfort to them. McNamara was arrested for pelting the bailiffs, who smashed the furniture of the house out of pure malice. Leaving the house of McNamara the evictors proceeded to the house of Hussey, whose eviction was unsuccessfully attempted a few days ago. He had prepared to receive the bailiffs by filling his house with friends and barricading every door and window. As the evicting party came within reach the occupants of the house showered boiling water upon their heads and pelted them with stones, bottles, etc., until they were compelled to retreat. Repeated assaults were made upon the house, but each time the assailants were driven back until at last the troops were ordered to fire upon the building at the next assault showed the shower of stones and hot water be kept up.

The bailiffs, under cover of the troops, again advanced upon the house, and with some difficulty battered a hole in the wall, through which they entered. A fierce fight ensued within the house, resulting in the repulse of the bailiffs, who were tumbling out through the hole in the wall bleeding and with their clothing nearly torn from them. Another party succeeded then, and after entering the building forced the occupants, after accomplishing the eviction after a hard fight, to leave the house. Half from the time of the first assault. The male defenders of Hussey's house, including Hussey himself, were arrested. After the eviction of Hussey a meeting was held, which was addressed by Michael Davitt, who repeated the advice he gave yesterday to resist eviction by all possible means, and reiterated his defiance of the Government to arrest him.

ALLEGED INJURY.—OTTAWA, Ont., June 4.—An additional paper in relation to the seizure of the British Columbia whalers in Behring's Sea was laid before Parliament yesterday. It consists of a dispatch from Lord Lansdowne, dated May 21, to Sir Henry Holt, Secretary for the Colonies, transmitting the views of the Privy Council of Canada on the subject, based on the report by Hon. George E. Foster, Minister of Marine and Fisheries. This, after reciting the particulars of the seizure already given, proceeds: "Minister Foster further states that from information received from the owners of the seized vessels and from the collector of customs at Victoria, he learned that James Ogilvie, an old man and master of the Carolina, was arrested along with the masters and mates of the Onward and Thornton, and brought into court for trial; that before sentence was pronounced he was suffered to wander away into the woods, where he died, from exposure, and that the other masters and mates, after remaining several months in prison, were released by order of the Governor of Alaska and turned adrift literally destitute to find their way as best they could to their homes 1,500 miles distant."

Further on the report says: "The owners of the condemned vessels have received no information from the United States authorities of the release of their vessels or restoration of valuable cargoes of sealskins and equipments on board. They fear that the Indians will have carried every thing valuable from the vessels, and if the owners are compelled to receive them at Unalakleet, they are deterred from doing so. It will necessitate the chartering of a steamer with men and supplies at great expense and a round voyage of 3,000 miles to bring the vessels to Victoria. The owners therefore consider this good ground for claiming consideration from the United States authorities when the question of reparation for the seizure is under consideration."

The Privy Council concur in the report of the Minister of Fisheries and ask the Governor General to call the attention of Her Majesty's Government again to the grave injustices done by the United States authorities to British subjects, peaceably pursuing their lawful occupations on the high seas, and to the great delay which has taken place in inquiring into and redressing the wrongs committed and to the severe, inhospitable and unjustifiable treatment of the officers and crews of vessels seized and to the serious loss inflicted upon the owners of the same, in order that full and speedy reparation may be made by the United States Government."

SOMEbody to Blame.—HARTFORD, Conn., June 4.—Two car-loads of Texas ponies that had been shipped from Texas to Eastern Pennsylvania, and had been wrongly shipped to Bangor, Me., were unloaded here to-day. It is understood that they had been eighteen days on the cars without food. Several of the animals were dead when the cars were opened and those that were alive were in a terribly emaciated condition. No drivers were with them.

Cheap Weddings.—WASHINGTON, June 4.—Six couples came to this city on an excursion from Richmond, Va., yesterday to get married. The cheapness of marriage licenses attracted them. They saved enough by purchasing here to pay their expenses from Richmond, thus securing the cheapest bridal tour on record.

WHERE THE FAULT LIES.

Our Canadian Neighbors Lay the Blame on the Washington Government for the Lack of More Amicable International Interests.

OTTAWA, Ont., May 23.—The Minister of Customs stated to a reporter last night that the Dominion Government is and always has been willing to meet the United States Government half way regarding international intercourse or the navigation of inland waters. The Dominion Government has made a proposition to the United States Government, in which it is suggested that the same privileges will be allowed American vessels entering Canadian inland waters as are allowed Canadian vessels entering American inland waters. The Minister of Customs indorses the report that recent correspondence with the Canadian Government has resulted in an understanding that the Canadian regulations in regard to the towing of vessels in Canadian waters and Canadian ports by American tugs, shall be amended so as to extend to American tugs, when in Canadian waters, "the same rights and privileges as are granted to Canadian tugs in American waters." Complaint is made, however, by the British Minister that the privileges covered by section 437, Revised Statutes have not been extended to Canadian tugs when visiting American lake harbors. The fault in the past of a more amicable arrangement not having been arrived at appears to have been wholly attributable to the Washington authorities. Mr. Bowell says: "It is the desire of our government to maintain the most friendly relations with our neighbors on the other side of the line, and if the friendly relations which have existed in the past have been or are to be disturbed, it is their fault and not ours."

THE WEATHER AND CROPS.

The Weekly Signal Office Bulletin Showing the General Conditions of the Weather and Crops.

WASHINGTON, May 23.—The Signal Office weekly weather and crop bulletin for the week ending Saturday, May 23, reports that during that week the weather has been slightly warmer than usual in the Mississippi valley, and thence westward to the Pacific coast, and from Southern New England westward over New York, Pennsylvania and Ohio. The weather has been slightly cooler in Wisconsin, Minnesota, Virginia and the South Atlantic States, but in all agricultural districts east of the Rocky mountains the average temperature for the week differs slightly from the normal. The season from January 1 to May 23 has been slightly warmer than usual in the grain and tobacco regions, while the average, daily excess in the cotton region has been from one to two degrees.

During the week the rain-fall has been slightly in excess of the average in the cotton regions from Texas eastward to Georgia, and generally in New York, Pennsylvania and Virginia. In the corn and wheat regions, where the total rainfall for the week, although well distributed, was slightly below the normal, especially in the western portions. Owing to the favorable distribution of the rainfall the seasonal deficiency of ten to fifteen inches appears, as yet, unimportant in the cotton region. Throughout the entire agricultural districts the weather has proved especially favorable for the growing crops, and the reports received this morning show that favorable conditions of rainfall and temperature yet continue except in Michigan, Illinois and Southern Minnesota, where the needed showers to-day are predicted.

THE RED CROSS.

Efficient Work Performed by the Noble Charity at the National Militia Encampment.

WASHINGTON, May 23.—One of the most notable features of the military encampment which has so engrossed visitors during the week just closed, and one which has achieved an undisputed success, has been the Red Cross Association. This noble philanthropy, representing the latest and improved organization for affording relief to the sick and wounded, obtained permission through its president, Clara Barton, to establish a hospital on the drill grounds, and was fortunate in having secured not only Government aid and countenance, but the gratuitous services of the medical director, Dr. J. O. Stanton, and those of the executive officer, Dr. Ross, with a corps of able assistants, many of whom did actual service in the late civil war.

The work of the Red Cross Association is highly benevolent and merciful, and does not conflict with any other established charities. Aside from its services during the Franco-Prussian, and the Russo-Turkish wars, the Red Cross has received the sanction of numerous prominent officials in this country, for its aid in suffering from the elements, and from the epidemics, such as the yellow fever in the South the great Michigan fires and the destructive floods of the Mississippi valley.

LANDS IN SEVERALTY.

The Jicarilla Apaches En Route to Their New Reservation in Northwest New Mexico.

SANTA FE, N. M., May 23.—Captain H. S. Welton, special agent of the Indian Bureau, has been ordered to take a party of 500 Jicarilla Apaches to their new reserve in Lincoln County, to their new reserve in northwest New Mexico, where this tribe of harmless Apaches are to be allotted lands in severalty. Forty-one boys and girls belonging to this tribe entertained their parents at Ramon's Training School here. Joseph, the young Indian woman who served as interpreter, and is one of the leading spirits in the new and more civilized life that has dawned upon these Apaches within the past few years, was dressed in a neat dress, and carried a parasol. The Indians are highly pleased over the outlook for their future. They have two thousand head of stock, and seemed to have plenty of spending money.

THE FISH WOULD NOT Bite.

PROSPECT HOPES, N. Y., May 23.—The President was quite disappointed over his poor day's sport yesterday. The conditions were unfavorable, and that probably accounts for the failure to catch any fish. To-day the promise of fine weather was fulfilled, the sun rising in the sky, obscured only by light clouds. None of the Presidential party rose early. Breakfast was had at ten o'clock. Mrs. Cleveland wore a tailor-made suit of black, and a cardinal felt hat about which a quantity of white mull was twisted. Mrs. Lamont wore a close fitting suit of gray. After breakfast Mr. Cleveland walked around the grounds and chatted with the guests of the hotel.

For Bile, Parasitism, and Wasting Disorders of Children.

Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites is unequalled. The rapidity with which children gain flesh and strength upon it is very wonderful. Read the following: "I have used Scott's Emulsion in cases of Bile, Parasitism and Wasting, and have seen more than pleased with the results, as in every case the improvement was marked."—J. M. MARY, M. D., New York.

About the worst examples a boy meets with are in the arithmetic.—Pack.

MAN wants but little here below, But wants that little strong. This is especially true of a purge. The average man or woman does not precisely hanker for it, as a rule, but when taken, wishes it to be prompt, sure and effective. Dr. Pierce's Pleasant Purgative Pellets leave nothing to be desired in point of efficacy, and yet their action is totally free from any unpleasant symptoms, or disagreeable after effects. Purely vegetable, perfectly harmless.

DICKED from exposure—the defaulter who committed suicide.—Boston Courier.

Ladies of the White House have found that their sometimes excessive duties produce a low, weak, tired and tremulous state of the system, and that iron restores richness and color to the blood, calms back a natural healthy tone to the digestive organs, and phosphorus mildly stimulates the brain, all combined in Dr. Harter's Iron Tonic.

Out of season—an empty pepper box.—Merchant Traveler.

Food makes Blood and Blood makes Beauty. Improper digestion of food necessarily produces bad blood, resulting in a feeling of fullness in the stomach, acidity, heartburn, sick-headache, and other dyspeptic symptoms. A closely confined life causes indigestion, constipation, biliousness and loss of appetite. To remove these troubles there is no remedy equal to Prickly Ash Bitters. It has been tried and proven to be a specific.

The best cough medicine is Piso's Cure for Consumption. Sold everywhere. 25c.

If afflicted with Sore Eyes use Dr. Isaac Thompson's Eye Water. Druggists sell it. 25c.

THE GREAT ENGLISH REMEDY

For Liver, Bile, Indigestion, etc. Free from Mercury. KEENE BROS. & CO., ST. LOUIS, MO.

Happy Homes.

Much has been written and said about how to make home happy. The moralist and the preacher have hackneyed this theme until it would seem nothing more remained to be said. But the philosophers have gone far out of their way to account for the prevalence of ill-assorted couples and unhappy homes, and have over-looked the chief cause. Most of the unhappiness of married life can be traced directly to those functional derangements to which women are subject. In nine cases out of ten the irritable, dissatisfied and unhappy wife is a sufferer from some "female complaint." A trial of Dr. Pierce's Favorite Prescription will produce more domestic happiness than a million sermons or philosophical treatises. It cures all those peculiar weaknesses and ailments incident to women. It is the only medicine sold by druggists, and will give satisfaction in every case, or money will be refunded. See guarantees printed on wrapper enclosing bottle.
